Baldwin, Florida 32234

To Whom It May Concern,

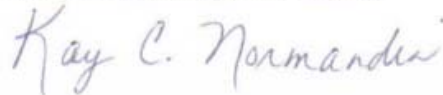

Ring Around the Phonics created by Mrs. Roma Cox has proven to be a great success. Mrs. Cox volunteered in our classroom for 3 months working with students below grade level.

The board game was a great success when used with these students. The majority of these students went from readiness to working on a higher reading level. One of our students went from below grade level to reading and working independently.

The game Ring Around the Phonics can easily be implemented in the classroom. We appreciate Mrs. Cox's game and the time she gave to our students.

Sincerely,

Kay C. Normandin (Kindergarten Teacher)

Linda K. Bell (Kindergarten Para-Professional)
